

Matching College Board Student Accounts and Registration

If a student is signed into his/her College Board account, but does not see his/her score, it means we were not able to automatically link the student score report to the student account.

- For security reasons, a student must verify additional information before we can display his/her scores.

- The student will need either his/her SAT registration number or the Student ID number the student was pre-identified with by the school (UIC). The high school office has access to your UIC if needed.

- To match, the student will:
 1. Go to this login page (<https://studentscores.collegeboard.org/viewscore>) and log in.
 2. Scroll down and click on Matching Tool.
 3. Review the personal information.
 4. If any information is incorrect or missing, click Update to revise. Students will be prompted to re-enter their password.
 5. If the information is correct, click Get My Scores.
 6. The student will have to provide information about his/her test.
 - For SAT: The test information includes test date and registration number, which can be found by educators in the Roster Report of the K-12 Reporting Portal.
 - For PSAT: The test information includes an access code, which can be found by educators in the Roster Report of the K-12 Reporting Portal when educators have access to scores. Until then, have students try providing their Student ID, which is their UIC.

There may still be cases in which a student is not able to view his/her scores using the steps above because the information is too different or the scores have not yet been finalized.

If students still cannot view their scores, they should call the College Board's Student SAT Helpline at 1-866-756-7346.
